"Demetra" (ref. AF287) is a semi-detached house for rent in Varazze where you can reconcile your senses during your holidays. We visit it together.

We start from the sea, in the Solaro area (part of the historic center that runs east of the town hall), and pass the central alley, covering a total of 500 flat metres.

During the short journey we come across shops and services of all kinds, useful for supplies when returning home from the beach.

Once we arrive we push the gate and go up to the second floor compared to street level.

In front of us there is a well-kept livable terrace, with characteristic architecture, where we find the independent entrance to the apartment.

This outdoor space is owned and it is immediate to imagine cool evenings in company, in the open air and in the tranquility that distinguishes the neighborhood.

Let's open the door and now explore the interior.
 We access directly into the living room equipped with large double-glazed windows with mosquito nets.
 The kitchenette is next door, separated from the living room.

A corridor connects the living area to the sleeping area, where there are two bedrooms and a recently renovated bathroom with window.

The detached house is equipped with independent heating, large aluminum windows with shutters and Genoese grit floors.
 The house, despite being in the centre, enjoys privacy and tranquility, a corner of the world surrounded by green trees.

Tourist rental contract.
